SUMMARY

Fourth year electrical engineering student seeking relevant professional development opportunities.

EDUCATION

Pennsylvania State University - Harrisburg

Fall 2023 - Spring 2027

Bachelor of Science in Electrical Engineering

SKILLS

- Programming experience with Python, MATLAB, C, C#, & Assembly (x86 & ARM)
- Extensive laboratory experience in circuit construction, analysis, and measurement with oscilloscopes, multimeters, and logic analyzers
- Experience with microcontroller development, IoT, SPI, UART, & I2C

TECHNICAL PROJECTS

Raspberry Pi Pico 3D graphics rendering

- Used a Pi Pico W to render 3D graphics onto a TFT display in real-time over SPI.

PSU Harrisburg Radio Telescope

- I oversee a team of 5 students to collect and analyze data from an on-campus radio telescope.

Interactive Portfolio Website

- Designed, developed, and deployed a responsive personal portfolio with HTML, CSS, & JS.

LEADERSHIP & INVOLVEMENT

PSU Harrisburg Institute for Electrical and Electronics Engineers

Network Administrator

- Managed the chapter's website, local server, & online documentation/resources.
- Hosted several workshops for professional development.

WORK EXPERIENCE

Raising Cane's - Mechanicsburg, PA

2025 - Present

Crew Member

Loves Travel Stop & Country Store - Middletown, PA

2023 - 2024
